

**Supplementary Table 6.** Localization of lncRNA TUG1 in human and mouse cells

| Subcellular locations | Score ( <i>Homo sapiens</i> ) | Score ( <i>Mus musculus</i> ) |
|-----------------------|-------------------------------|-------------------------------|
| Cytoplasm             | 0.421410272                   | 0.889351111                   |
| Nucleus               | 0.281049003                   | 0.069514707                   |
| Ribosome              | 0.017705428                   | 0.017720376                   |
| Cytosol               | 0.231944278                   | 0.017874057                   |
| Exosome               | 0.047891019                   | 0.005539749                   |

lncRNA TUG1, long non-coding RNA taurine upregulated gene 1.
